

# SUNDAY SCHOOL IDEAS FOR July 12, 2020

## **Idea #1: Alphabet poem using part of the alphabet to create a funny list poem**

Example:

Leaven (little)

Makes

Non-stop

Oven-baked

Puffs

## **Idea #2: Sing as softly as possible; see how far away another can get and still hear you** (Something small, like your voice, can have a big impact.)

## **Idea #3: Art activity for children and adults**

Draw a very large tree with a large very wide and sturdy trunk and many branches. Within the branches add many birds. Think of the tree as the Kingdom of God and the birds as all of the people who live in the Kingdom. The tree is strong and beautiful and is alive and grows stronger and larger each year. The birds find a safe home within this tree.

## **Idea #4: Another possible adult activity**

To represent the concept that the Kingdom of God began small like the mustard seed but continues to expand as people live in God's way, make a design that illustrates this concept.

Some ideas might be to start a design from a central point and have shapes radiate out in a linear fashion, like designs you might see of a radiant sun. Or the design can expand out in concentric bands. These are just a few of the possible ways to illustrate this theme.
